Where should you take your clients or visiting associates for a business lunch? We've chosen some places we think are ideal based on their chic factor, uniqueness or setting, in the business areas of the City and Kirchberg, and listed if they have a Wifi connection, wheelchair access and how we rate the intimacy of the setting (in terms of table spacing). If you need to combine lunch with a brainstorming session or meeting, we've added a few places where you can do just that and some good mid-way points for a business lunch with cross-border colleagues.

### Kirchberg – financial and EU institution district
